To fully comprehend the information contained within a response to this RFI, Centlec may request further clarification in the form of brief verbal communication by telephone, written communication, electronic communication, or a presentation to the Centlec Evaluation Committee.

4. BACKGROUND

Centlec (SOC) Ltd is researching innovative funding and financing solutions for programmes of Centlec owned renewable energy projects and the feasibility of a Public Private Partnership (PPP) opportunity in which it gives a selected private party the right to the appropriate commercial use of the re-purposed power station, equipment and associated buildings.

Centlec is planning on implementing these projects in line with its Integrated Development Plan, Climate Change Strategy and Action Plan to achieve a Carbon Neutral City by 2050, as well as the feasibility of this PPP with regards to the Power Station Building, particularly what scale and types of market interest is available and mostly popular in the region.

With a range of constraints currently being placed on municipal revenues and budgets, along with the urgency for action on climate mitigation and energy security, alternative and innovative sources, social and economic upliftment of communities finance from external parties need to be sought to provide the upfront capital to implement these projects in a cost-effective and affordable manner.

5. RECOMMENDED REQUIREMENTS

Departures from the following recommended requirements must be fully motivated:

- 2.1 The financial solution must be affordable and provide the necessary upfront capital to implement these projects.
- 2.2 The solutions preferred are those which take cognizance of the climate mitigation benefits of the renewable energy program and the need for social and economic upliftment within communities.
- 2.3 The assessment of offered financial solutions by Centlec (SOC) Ltd will include, but not be limited to, the following considerations: affordability over the life of the investment, ease of monitoring of funds/reporting, risk allocation between parties.
- 2.4 Local and international financial institutions are invited to respond, however the finance provided must be denominated in South African Rand (ZAR) to limit Centlec's risk exposure to currency and foreign exchange fluctuations.
- 2.5 Whilst Centlec's preference will be for fixed interest rates, we will consider both fixed and variable interest rate funding.
- 2.6 To develop these Centlec-owned projects, Centlec would be willing to engage in various types of contracts, including but not limited to, Centlec developing and executing the projects and/or through a Public-Private Partnership model.

2.7 A typical PPP agreement will be formulated.

2.8 In this agreement, the private party is granted rights to finance, design, build, maintain and operate the facility established for a period likely to provide a fair return on investment.

2.9 In return, the private party will meet agreed heritage, environmental, development, operating and broad-based obligations, including the payment of a PPP fee to Centlec (SOC) Ltd. At the end of the agreement term, the facility reverts to Centlec (SOC) Ltd.

2.10 The objective of the strategy is to re-purpose the power station property owned by Centlec (SOC) Ltd, to preserve its heritage value and to maximise the property for income generation, for socio-economic development of the Mangaung Metro Municipality communities and for the purpose of education.

2.11 One of the avenues for commercialisation is through Public Private Partnership which may provide Centlec (SOC) Ltd the opportunity to achieve this goal. High-level commercialisation objectives for Centlec (SOC) Ltd include any of the following:

This Municipal Bidding Document (MBD) must form part of all bids invited. It contains general information and serves as a declaration form for local content (local production and local content are used interchangeably).

Before completing this declaration, bidders must study the General Conditions, Definitions, Directives applicable in respect of Local Content as prescribed in the Preferential Procurement Regulations, 2011 and the South African Bureau of Standards (SABS) approved technical specification number SATS 1286:2011 (Edition 1) and the Guidance on the Calculation of Local Content together with the Local Content Declaration Templates [Annex C (Local Content Declaration: Summary Schedule), D (Imported Content Declaration: Supporting Schedule to Annex C) and E (Local Content Declaration: Supporting Schedule to Annex C)].

1. General Conditions

- 1.1. Preferential Procurement Regulations, 2011 (Regulation 9) makes provision for the promotion of local production and content.
- 1.2. Regulation 9.(1) prescribes that in the case of designated sectors, where in the award of bids local production and content is of critical importance, such bids must be advertised with the specific bidding condition that only locally produced goods, services or works or locally manufactured goods, with a stipulated minimum threshold for local production and content will be considered.
- 1.3. Where necessary, for bids referred to in paragraph 1.2 above, a two stage bidding process may be followed, where the first stage involves a minimum threshold for local production and content and the second stage price and B-BBEE.
- 1.4. A person awarded a contract in relation to a designated sector, may not sub-contract in such a manner that the local production and content of the overall value of the contract is reduced to below the stipulated minimum threshold.
- 1.5. The local content (LC) expressed as a percentage of the bid price must be calculated in accordance with the SABS approved technical specification number SATS 1286: 2011 as follows:

$$LC = [1 - x / y] * 100$$

Where

x is the imported content in Rand

y is the bid price in Rand excluding value added tax (VAT)

Prices referred to in the determination of x must be converted to Rand (ZAR) by using the exchange rate published by the South African Reserve Bank (SARB) at 12:00 on the date of advertisement of the bid as required in paragraph 4.1 below.

The SABS approved technical specification number SATS 1286:2011 is accessible on http://www.thedti.gov.za/industrial_development/ip.jsp at no cost.

- 5** In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
