METER CONVERSION PROJECT-MANGAUNG MUNICIPAL AREA OF SUPPLY

As CENTLEC (Soc) Ltd, we have taken note of the notice circulating in various social media platforms calling upon respective customers who are still using old rotational meters to contact CENTLEC for those meters to be replaced urgently with the new prepaid meters as they are considered outdated and beyond their normal life expectancy.

As CENTLEC, we would like to state that the project of replacing old meters was concluded in 2021 whereby all outstanding meters during the 2018 meter conversion project were changed.

Members of the community are made aware that CENTLEC is, currently, not involved in any meter conversion project. In cases where a need arises to re-visit the project, a formal notice will be circulated in all relevant platforms warning community members well in advance.

We urge the community of Mangaung to be more vigilant and do not allow access to any person claiming to have visited their homes and premises with regard to the said project.
